

WordPress Website Integration...

Use Jquery Code

```
<script>
  jQuery.noConflict();
  jQuery(document).ready(function($) {
    $('#submitstock1').click(function() {
      var name = window.jQuery('[name="form_fields[namestock1]"]').val();
      var phone = window.jQuery('[name="form_fields[phonestock1]"]').val();
      var email = window.jQuery('[name="form_fields[emailstock1]"]').val();

      if(name != "" && phone != "" && email != "")
      {
        var data = {
          "Apikey": '32b08250-a678-46b9-91a9-d0a552479021',
          "Name": name,
          "Mobile": phone,
          "Email":email,
          "Source": "Website",
          "Description": "Apply For The Best Stock Market Course In Delhi"
        }
        window.jQuery.ajax({
          type: "POST",
          url: 'https://vscrm.in/api/lead/LeadAddRestCall',
          data: data,
          dataType: "json",
          success: function (data, textStatus, xhr) {
            console.log(xhr);
          },
          error: function (xhr, textStatus, errorThrown) {
            console.log(errorThrown);
          }
        });
      }
      else
      {
        console.log("Required Name, Email and Phone No.");
      }
    });
  });
</script>
```

HTML Code

HTML Code

```
1 <script>
2   jQuery.noConflict();
3   jQuery(document).ready(function($) {
4     // Now you can safely use $ within this function
5     $('#submitstock1').click(function() {
6       var name = window.jQuery('[name
7         = "form_fields[namestock1]"]').val();
8       var phone = window.jQuery('[name
9         = "form_fields[phonestock1]"]').val();
10      var email = window.jQuery('[name
11        = "form_fields[emailstock1]"]').val();
12
13      if(name != '' && phone != '' && email != '')
14      {
15        var data = {
16          "ApiKey": "32b08250-a678-46b9-91a9
17            -d9a552479621",
18          "Name": name,
19          "Mobile": phone,
20          "Email": email,
21          "Source": "Website",
22          "Description": "Apply For The Best
23            Stock Market Course In Delhi"
24        }
25        window.jQuery.ajax({
26          type: "POST",
27          url: "https://vscrm.in/api/lead
28            /LeadAddRestCall",
29          data: data,
30          dataType: "json",
31          success: function (data, textStatus,
32            xhr) {
33            console.log(xhr);
34          }
35        });
36      }
37    });
38  });
39 </script>
```
